ORDINANCE NO. 3906

ORDINANCE OF THE CITY OF EDMONDS. AN WASHINGTON, ADOPTING AMENDMENTS TO THE OF CAPITAL **FACILITIES PLAN** ELEMENT THE COMPREHENSIVE PLAN; AND FIXING A TIME WHEN THE SAME SHALL BECOME EFFECTIVE.

WHEREAS, on September 11, 2012, the Planning, Parks and Public Works

Committee reviewed the proposed 2013-2018 Capital Facilities Plan and Capital Improvement

Program; and

WHEREAS, on October 2, 2012, the proposed 2013-2018 Capital Facilities Plan and Capital Improvement Program were presented to the Council for review and discussion; and

WHEREAS, the Capital Facilities Plan was presented to the Planning Board on October 10, 2012; and

WHEREAS, on October 16, 2012, a Public Hearing on the Capital Facilities Plan Element Update for 2013-2018 to the City's Comprehensive Plan and Capital Improvement Program was held; and

WHEREAS, the City Council approved the 2013-2018 Capital Facilities Plan with amendments; and

WHEREAS, the City Council is considering the proposed amendments to the Capital Facilities Plan in conjunction with all Comprehensive Plan amendments docketed for consideration during 2012; and

WHEREAS, the City Council expressly finds that, consistent with the requirements of RCW 36.70A.130, the adoption of these amendments during a single council meeting complies with the requirements of the Growth Management Act, that said amendments have been considered by the City Council concurrently, that the City Council ascertained

cumulative effect of the various proposals, that the City Council finds the changes to be internally consistent, and that their cumulative effect is consistent with the purpose and intent of both the Growth Management Act and the City's Comprehensive Plan, NOW THEREFORE

THE CITY COUNCIL OF THE CITY OF EDMONDS, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. The Capital Facilities Plan element of the Edmonds Comprehensive Plan is hereby amended to read as set forth in **Exhibit A**, which is attached hereto and incorporated herein by this reference as if fully set forth herein.

Section 2. Effective Date. This ordinance, being an exercise of a power specifically delegated to the City legislative body, is not subject to referendum, and shall take effect five (5) days after passage and publication of an approved summary thereof consisting of the title.

APPROVED:

MAYOR DAVID O. EARLING

Purpose	Meet citizen needs for an Aquatics Center (Feasibility study complete August 2009).	Establish a new center for the Art's Community.	Replace / Renovate (Currently subleased on Civic Playfield until 2021).	Edmonds School District (City has lease until 2021)	Expand building for additional programs (Sno-Isle Capital Facilities Plan).	In cooperation with ESD#15 develop a community park and athletic complex.	Replace / Renovate deteriorating building in City Park	Replace and expand deteriorating building on the waterfront.	Relocate ferry terminal to Marina Beach.	Acquire and develop property for a year round public market
Project Name		Art Center / Art Museum	Boys & Girls Club Building	Civic Playfield Acquisition and/or development	Edmonds / Sno-Isle Library	Community Park / Athletic Complex - Old Woodway High School	Parks & Facilities Maintenance & Operations Building	Senior Center Building	Edmonds Crossing WSDOT Ferry / Mutimodal Facility	Public Market (Downtown Waterfront)

PROJECT NAME: Aquatic Facility ESTIMATED PROJECT COST: \$5,000,000 - \$23,000,000

PROJECT DESCRIPTION: Implement recommendations of the Aquatics Feasibility Study completed in 2009. Six scenarios were presented and the plan recommended by the consultants was a year round indoor pool with an outdoor recreational opportunity in the summer. The project is dependent upon a public vote.

PROJECT BENEFIT/ RATIONALE: The current Yost Pool, built in 1972, is nearing the end of its life expectancy. The comprehensive study done in 2009 assessed the needs and wants of Edmonds citizens in regard to its aquatic future as well as the mechanical condition of the current pool.

PROJECT NAME: Art Center / Art Museum

ESTIMATED PROJECT COST: \$5,000,000

PROJECT DESCRIPTION: A new Art Center/Museum facility will provide and promote Cultural / Arts facilities for the City of Edmonds. The need for visual and performing arts facilities is a high priority stated in the adopted updated Community Cultural Arts Plan 2001 and in the 2008 update process.

PROJECT BENEFIT/ RATIONALE: The City of Edmonds desires to secure and provide for public Cultural Arts facilities in the community. The emphasis on the arts as a high priority creates the need to determine feasibility for and potentially construct new visual arts related facilities.

PROJECT NAME: Boys & Girls Club Building | ESTIMATED PROJECT COST: \$5,000,000

PROJECT DESCRIPTION: Build new Boys & Girls Club facility to accommodate the growing and changing needs of this important club.

PROJECT BENEFIT/ RATIONALE: The current Boys & Girls Club was constructed as a field house by the Edmonds School District decades ago and is in need of major renovation or replacement. It is inadequate in terms of ADA accessibility and does not meet the needs of a modern club.

and/or Development

6th Street N. and Edmonds Street, Edmonds City limits, Snohomish County 8.1 acres / property owned and leased from Edmonds School District until 2021; Community Park/Zoned Public

PROJECT DESCRIPTION: Acquire or work with the School District to develop this 8.1 acre property for continued use as an important community park, sports tourism hub and site of some of Edmonds largest and most popular special events in downtown Edmonds.

PROJECT BENEFIT/ RATIONALE: Gain tenure and control in perpetuity over this important park site for the citizens of Edmonds.

PROJECT NAME: Community Park / Athletic Complex at the Former Woodway High School

ESTIMATED PROJECT COST: \$6,000,000-

\$8,000,000

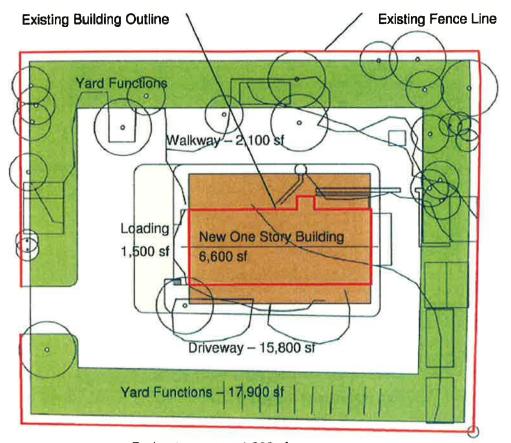

PROJECT DESCRIPTION: Develop regional community park and fully lighted multi-field athletic complex in partnership with Edmonds School District. Development contingent upon successful partnerships, grants, and regional capital campaign.

PROJECT BENEFIT/ RATIONALE: Currently underutilized and under maintained facility with great potential as community multi-use active park. Site has existing controlled access, greenbelt, parking and 4-court tennis facility with substandard fields. Highly urbanized area with 150,000 residents within 5-mile radius. Future maintenance supported by user fees.

PROJECT NAME: Parks & Facilities ESTIMATED PROJECT COST: \$3-\$4 Million Maintenance & Operations Building

Perimeter zone - 4,200 sf

PROJECT DESCRIPTION: The 40 year old maintenance building in City Park is reaching the end of its useful life and is in need of major renovation or replacement.

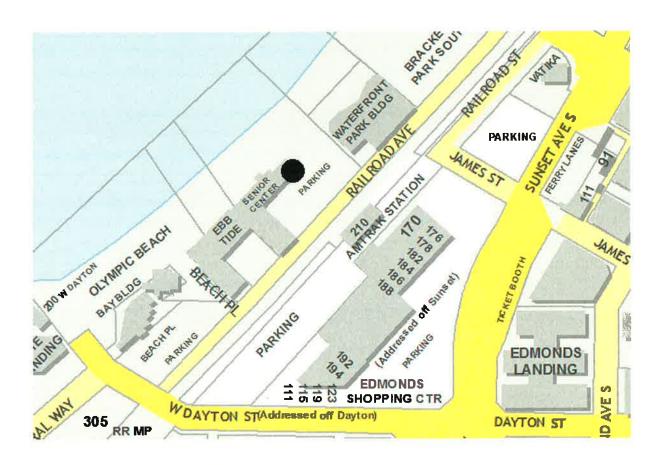

PROJECT BENEFIT/ RATIONALE: Parks and Facilities Divisions have long outgrown this existing facility and need additional work areas and fixed equipment in order to maintain City parks and Capital facilities for the long term.

SCHEDULE: Contingent on finding additional sources of revenue from general and real estate taxes.

PROJECT NAME: Senior Center Building ESTIMATED PROJECT COST: \$4 – 10 mil.

PROJECT DESCRIPTION: Replace and enlarge deteriorating Senior Center building complex on the City waterfront.

PROJECT BENEFIT/ RATIONALE: This facility is at the end of its useful life. The floors are continuing to settle which poses significant renovation costs. In addition, the facility requires structural reinforcement to withstand a major earthquake.

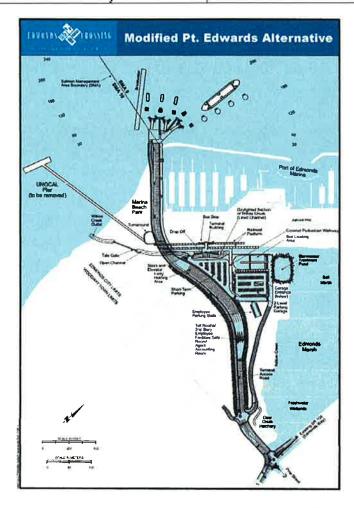

SCHEDULE: Contingent on procuring the necessary funding from grants and other sources.

PROJECT NAME: Public Market (Downtown | ESTIMATED PROJECT COST: \$5,000,000

Waterfront)

PROJECT DESCRIPTION: Work with community partners to establish a public market, year around, on the downtown waterfront area.

PROJECT BENEFIT/ RATIONALE: The project will help to create a community gathering area, boost economic development, bring tourists to town, and will be a valuable asset to Edmonds.

SCHEDULE:

This project depends on the ability to secure grant funding, and community partners willing to work with the city to establish this. This potentially can be accomplished by 2017.

Total CFP

PROJECT DESCRIPTION: The intersection of 84th Ave and 212th is 5 legged, which also includes Main Street and Bowdoin Way approaches. The intersection is stop-controlled for all approaches. A roundabout would be constructed and yield signs placed at each approach. Installation will require the acquisition of right of way adjacent to the intersection. (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #6).

PROJECT BENEFIT/ RATIONALE: The intersection currently functions at LOS F and delays during the PM peak hour will worsen over time. A roundabout will improve the LOS and reduce the need for vehicles to stop during low volume periods, improving the LOS to B.

SCHEDULE: A federal grant was secured for all project phases. Construction is scheduled for completion in 2013.

PROJECT NAME: SR-524 (196th St. SW)/ 88th

ESTIMATED PROJECT COST: \$879,000

Ave. W Intersection Improvements

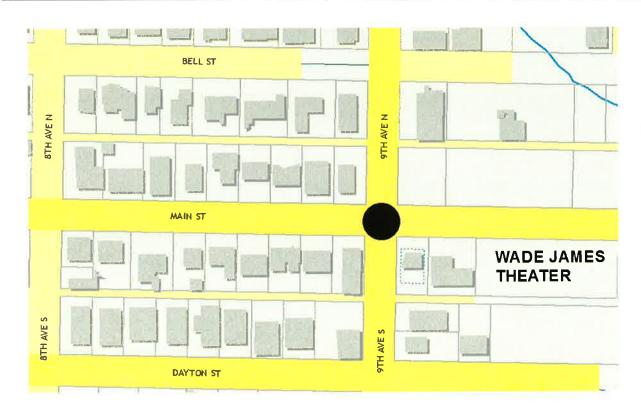

PROJECT DESCRIPTION: Install traffic signal at the intersection of 196th St. SW @ 88th Ave. W. The modeling in the 2009 Transportation Plan indicated that restricting northbound and southbound traffic to right-turn-only (prohibiting left-turn and through movements) would also address the deficiency identified at this location through 2025. This is same alternative as one concluded by consultant in 2007 study but not recommended by City Council. This could be implemented as an alternate solution, or as an interim solution until traffic signal warrants are met. The ex. LOS is F (below City Standards: LOS D). (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #8).

PROJECT BENEFIT/ RATIONALE: Improve traffic flow characteristics and safety at the intersection. The improvement would modify LOS to A, but increase the delay along 196th St. SW.

SCHEDULE: Engineering scheduled for 2016 – 2017 and construction in 2018 (must meet an MUTCD traffic signal warrant and get WSDOT approval such 196th St. SW is a State Route).

PROJECT NAME: Main St and 9th Ave. S (interim solution) ESTIMATED PROJECT COST: \$10,000

PROJECT DESCRIPTION: Installation of a mini-roundabout or re-striping of 9th Ave. with the removal of parking on both sides of the street. (not included in the 2009 Transportation Plan project priority chart)

PROJECT BENEFIT/ RATIONALE: The intersection is stop-controlled for all approaches and the existing intersection LOS is E (below the City's concurrency standards: LOS D). The restriping of 9th Ave. would improve the LOS to C or B with the installation of a mini-roundabout.

PROJECT NAME: 76th Ave W @ 212th St. SW

ESTIMATED PROJECT COST: \$2,923,000

Intersection Improvements

PROJECT DESCRIPTION: Add a northbound and southbound left-turn lane to convert the signal operation for those approaches from split phasing to protected-permissive phasing. Add a right-turn lane for the westbound, southbound, and northbound movements. (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #3).

PROJECT BENEFIT/ RATIONALE: Reduce the intersection delay and improve the existing level of service from LOS D (LOS F by 2015) to LOS C.

SCHEDULE: A federal grant was secured for the design and a portion of the right of way phases. Design started in 2012 and is scheduled for completion in 2015, along with the right-of-way phase. Construction is scheduled for 2015 (unsecured funding).

PROJECT NAME: 220th St SW @ 76th Ave W

ESTIMATED PROJECT COST: \$173,000

Intersection Improvements

PROJECT DESCRIPTION: Reconfigure eastbound lanes to a left turn lane and through / right turn lane. Change eastbound and westbound phases to provide protected-permitted phase for eastbound and westbound left turns. Provide right turn overlap for westbound movement during southbound left turn phase. (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #11).

PROJECT BENEFIT/ RATIONALE: Reduce the intersection delay and improve the LOS. The LOS would be improved from LOS E to LOS C.

SCHEDULE: Engineering and construction scheduled for 2017 (unsecured funding).

PROJECT NAME: 228th St. SW Corridor

ESTIMATED PROJECT COST: \$5,296,000

Safety Improvements

PROJECT DESCRIPTION: 1) Extend 228th St across the unopened right-of-way to 76th Avenue West 2) Signalize the intersection of 228th St SW @ SR99 and 228th St. SW @ 76th Ave. West 3) Construct a raised median in the vicinity of 76th Avenue West. 4) Add illumination between 224th St SW and 228th St SW on SR 99 5) Overlay of 228th St. SW from 80th Ave. W to ~ 2,000' east of 76th Ave. W. (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #1).

PROJECT BENEFIT/ RATIONALE: The project will improve access / safety to the I-5 / Mountlake Terrace Park & Ride from SR99. This east / west connection will reduce demand and congestion along two eastwest corridors (220th Street SW and SR104). Roadway safety will also be improved as SR 99/ 228th Street SW will become a signalized intersection. The accident-prone left turns from SR99 to 76th Ave. W. will be restricted with the addition of a raised center island.

SCHEDULE: Engineering and ROW acquisition scheduled for completion by 2014. Construction scheduled to start in 2014. In 2010, federal grant was secured for the completion of design and ROW acquisition. In 2012, a federal grant was secured for construction.

PROJECT NAME: Olympic View Dr. @ 76th Ave.
W Intersection Improvements

ESTIMATED PROJECT COST:
\$1,431,000

PROJECT DESCRIPTION: Install traffic signal (the intersection currently stop controlled for all movements). (ROADWAY ROJECT PRIORITY in 2009 Transportation Plan: #9).

PROJECT BENEFIT/ **RATIONALE**: The improvement will reduce the intersection delay. By 2015, the Level of Service will be F, which is below the City's concurrency standards (LOS D). The improvement would modify the Level of Service to LOS B.

SCHEDULE: Engineering and Construction are scheduled between 2019 and 2025 (unsecured funding).

TOTAL							\$1,431,000					

PROJECT NAME: 84th Ave. W (212th St. SW ESTIMATED PROJECT COST: \$20,422,000

to 238th St. SW)

PROJECT DESCRIPTION: Widen 84th Ave. W to (3) lanes with curb, gutter, bike lanes, and sidewalk on each side of the street. (part of this project was ranked #11 in the Long Walkway list of the 2009 Transportation Plan).

PROJECT BENEFIT/ RATIONALE: Improve overall safety of the transportation system along this collector street: 1) the sidewalk and bike lanes would provide pedestrians and cyclists with their own facilities and 2) vehicles making left turn will have their own lane, not causing any back-up to the through lane when insufficient gaps are provided.

SCHEDULE: Engineering and Construction are scheduled between 2019 and 2025 (unsecured funding). The project cost is split between Snohomish County and Edmonds since half the project is in *Esperance*.

PROJECT NAME: Main St. Pedestrian Lighting from 5th Ave. to 6th Ave. **ESTIMATED PROJECT COST:** \$1,714,600

PROJECT DESCRIPTION: The project consists of installing (16) historic style decorative light poles along this block (8 on the south side and 8 on the north side), (4) decorative poles with artist made elements at the top of the pole (2 on both sides), and inlaid street names at the intersection corners. The visual character of this location will be further enhanced as each new pole will have a planter basket for summer flowers. New sidewalk and curb gutter will be installed along both sides of this stretch (total length: approximately 1,200'), to improve pedestrian safety and remove the sidewalk humps and cracks. New ADA curb ramps or truncated domes will be installed at all non-compliant curb ramps. (New project, not included in 2009 Transportation Plan)

PROJECT BENEFIT/ RATIONALE: Increase pedestrian safety and activity along the Downtown Retail Core.

SCHEDULE: A federal grant was secured for the design and construction of this project. Construction will be completed by 2013.

PROJECT NAME: 236th St. SW from

ESTIMATED PROJECT COST: \$417,000

Edmonds Way to Madrona Elementary School

PROJECT DESCRIPTION: Construct a walkway on the south side of 236th St. SW from SR 104 to Madrona Elementary. (This is only part of a stretch of Walkway project, which ranked #1 in the Long Walkway list in the 2009 Transportation Plan)

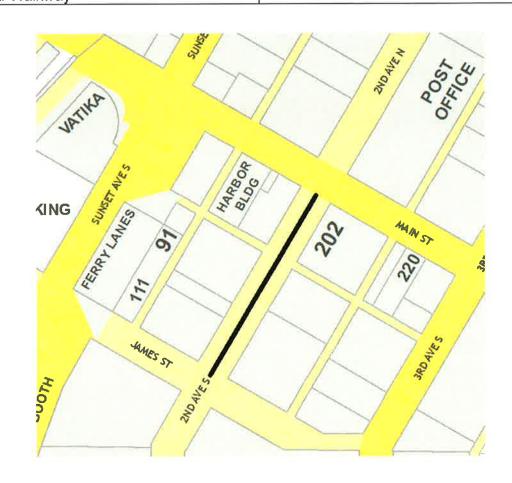

PROJECT BENEFIT/ RATIONALE: To provide a safe and desirable walking route. The current pedestrian conditions are unsafe near Madrona Elementary School and along 236th St. SW because of the limited sight distance issues (curvature of the roadway).

SCHEDULE: Engineering is scheduled to begin in 2013 and construction completed by 2015. A *Safe Routes to School* grant application was submitted in Spring '12 to fund the design and construction phases. A response is scheduled for Spring '13.

PROJECT NAME: Southwest Edmonds Basin Study Projects 1 & 3 - Connect Sumps on 238th St SW to Hickman Park Infiltration System with Rain Gardens and Replace Infiltration pipe (near 107th Pl W). SSWCP¹ Projects 1A and 1C.

ESTIMATED PROJECT COST: \$646,260

Alignment of the proposed storm drain pipe along 238th St SW.

Existing catch basin sumps in the foreground.

PROJECT DESCRIPTION: Project will install a stormwater pipe to replace the the existing aging and incomplete storm drain system and install rain gardens on 104th Ave W. near cemetery. This project has been combined with a replacement of an infiltration pipe (near 107th PI W) for efficiency (this replacement project is not a CFP but it is included in the total project cost).

PROJECT BENEFIT/ RATIONALE: Several sumps (dry wells) along 238th St SW in Southwest Edmonds are not functioning properly. They have become clogged and are contributing to area flooding during large storm events. Connecting the sumps to the City of Edmonds infiltration system in located Hickman Park will reduce the potential for flooding. This infiltration system was designed to handle the stormwater flows from this street. Rain gardens have been added to the project for water quality treatment purposes.

PROJECT NAME: Edmonds Marsh/Shellabarger Cr/Willow Cr – SSWCP¹ Projects 12 & 13

ESTIMATED PROJECT COST: \$8,931,000

Edmonds Marsh as seen from the viewing platform.

Previously restored section of Willow Creek. Source: www.unocaledmonds.info/clean-up/gallery.php

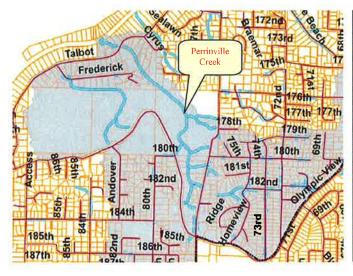

PROJECT DESCRIPTION: Build on a feasibility study to be completed in late 2012/early 2013 with People for Puget Sound that will assess the feasibility of day lighting the Willow Creek channel. The potential for salmonid rearing in the March will also be evaluated. The final project may include 23 acres of revegetation, construct new tide gate to allow better connectivity to the Puget Sound, removal of sediment, 1,100 linear ft of new creek channel lined with an impermeable membrane. Funds will be used for study and construction but exact breakdown cannot be assessed at this time. Grant funding at 75% is assumed for 2013-2018.

PROJECT BENEFIT/ RATIONALE: The daylight of willow creek will help reverse the negative impacts to Willow Creek and Edmonds Marsh that occurred when Willow Creek was piped. It will also help eliminate the sedimentation of the marsh and the transition to freshwater species and provide habitat for salmonids.

- Total costs are in 2011 dollars.
- 3. Future expenses reflect the following annual inflation rates: 2013 4%; 2014 4%; 2015 4%; 2016 4%; 2017 4%; 2018 3%

PROJECT NAME: Perrinville Creek High Flow Reduction/Management Project—SSWCP¹
Project 15

Perrinville Creek Channel illustrating the channel incision that will be addressed by restoration.

PROJECT DESCRIPTION: A flow reduction study is scheduled for 2013 that will develop alternatives to implement in the basin. Beginning in 2014 projects are expected to be designed and/or constructed. It is expected that this project will be implemented with the City of Lynnwood (half the Perrinville basin is in Lynnwood) and Snohomish County (owner of the South County Park). Projects will likely be a combination of detention, infiltration, and stream bank stabilization. Grant funding at 75% is assumed for 2014-2018.

PROJECT BENEFIT/ RATIONALE: Urbanization of the Perrinville Creek Basin has increased flows in the creek, incision of the creek, and sedimentation in the low-gradient downstream reaches of the creek. Before any habitat improvements can be implemented, the flows must be controlled or these improvements will likely be washed away.
